

Benefon to start industrial cooperation procedure for transferring Turku premises to Salo

BENEFON OYJ

BULLETIN

31.5.2006 at 13:00 hrs

Benefon Oyj is commencing a formal industrial cooperation procedure regarding re-arrangement of office premises. The industrial cooperation procedure in accordance with the negotiation call presented to the personnel today will comprise of the transfer of all 12 of Turku R&D personnel to Benefon's Headquarters in Salo. The presented re-arrangement of premises does not affect the number of personnel or their employment contracts otherwise.

The presented re-arrangement of work premises is part of the corporate operations and productivity improvement plans. The plans include having Finance, Product Management, Service, Manufacturing and R&D in one facility, targeting a productivity boost from improved inter-team working and communications. Also further investment in people and planned IT improvements will be better utilised when focused in one facility.
